

22 February 2022

Dear Customer,

COVID-19 Coronavirus Update for AMX Clients

Reviewed in response to the Government removing all Covid-19 Restrictions.

We always aim to deliver a quality service to our clients, and thankfully we have been able to successfully carry out most of our operations whilst working remotely since March 2020.

With the Government now removing all Covid-19 measures AMX Solutions Ltd is still retaining a more cautious approach and we shall continue to follow hybrid working with our employees working from home and the AMX office. This arrangement will be reviewed regularly, in line with latest Government advice.

Therefore, to minimise risk and adopt a sensible approach, AMX will be:

- 1) Supporting our clients remotely with training and system consultation as this has proven highly effective during the pandemic and, moving forward this will continue to be the preferred option.
- 2) Allowing Visitors once again to visit the AMX Solutions Offices, provided they are healthy and not showing any illness/Covid symptoms.
- 3) Holding an AMX User Group – we're really pleased to announce this is returning as an in-person event at Engineer's House, Bristol but we shall also be offering online access. More details can be found at <https://www.amxsolutions.co.uk/usergroup2022>.

For any other questions or concerns, please e-mail info@amxsolutions.co.uk.

Many thanks for your patience, understanding and continued custom throughout the pandemic; we look forward to seeing you soon.

Saeid Naelini

Managing Director
